

# Course Overview – Media Class

**Teacher:** Mr. Tim Kearney

**Email:** [tim.kearney@wearetherockofcf.org](mailto:tim.kearney@wearetherockofcf.org)

**Course Overview:** This course is designed to provide high school students with a comprehensive understanding of various aspects of media production with a righteous, Kingdom Perspective. Through a combination of theoretical knowledge and hands-on practical experience, students will explore the fields of video production, graphic design, web design, and audio production. This course aims to equip students with the skills necessary to create and present modern multimedia content effectively and with excellence.

## Course Objectives:

1. To educate students on the Big Truths of Media, and the importance of creating media responsibly and ethically.
2. To introduce students to the fundamental principles and techniques of video production, graphic design, web design, and audio production.
3. To develop students' creative and critical thinking abilities in the context of multimedia creation.
4. To provide hands-on experience with industry-standard software and equipment used in media production.
5. To cultivate effective communication and collaboration skills through group projects and presentations.

## Provided Materials:

Students will have access to computers, software, cameras, equipment, graphic design tools, web design tools, and audio equipment on campus. Access will be subject to availability.

## Recommended Materials:

**Home Computer Access:** It is strongly recommended that students have access to a working computer at home. This can be a Mac or PC, laptop or desktop—web books, tablets and Chromebooks are not recommended.

**Video Camera Access:** It is strongly recommended that students have access to some sort of video camera. Many smartphones have amazing cameras and will work well (whether it's the student's or the parents'). Digital video cameras

## File Transferring:

A major aspect of media class is transferring files. Whether its turning in a project or downloading footage to work on at home, having a smooth, easy process to transfer files is key.

We will be using a free service that does not require you to make an account called WeTransfer.

The site allows the upload and transfer of files simply, quickly and easily—delivered as a simple download link.

So remember: need to transfer files? Go to

<https://wetransfer.com/>

Send the file to:
